Mittwoch, den 17. August 2011 um 12:50 Uhr - Aktualisiert Mittwoch, den 17. August 2011 um 13:25 Uhr

Hier geht es weiter:

Wenn man den Webbrowser geöffnet hat kann man sich mit der URL:

http://localhost/vtiger/install.php mit dem vtiger CRM verbinden.

The screenshot shows the 'Configuration Wizard' interface for Vtiger CRM. The title bar at the top reads 'Configuration Wizard' and 'vtiger'. The main content area is titled 'Welcome to Configuration Wizard'. Below this, a dashed box contains the following text:

This configuration wizard helps you install vtigerCRM 5.2.0.

vtiger CRM is a community-driven, fully open source, CRM software project.

The aim of the project is to provide the best and most open CRM solution with the lowest total cost of ownership to small and medium enterprises.

The product is widely used throughout the world, with over a thousand downloads a day.

vtiger CRM has an active community of developers and users, with contributors from many different countries.

It is available in many languages, with a strong partner network in dozens of countries.

At the bottom of the dashed box, there are two green buttons: 'Install' and 'Migrate'. Below the buttons, the URL www.vtiger.com is displayed.

Vtiger CRM installieren Teil 3

Geschrieben von: Administrator

Mittwoch, den 17. August 2011 um 12:50 Uhr - Aktualisiert Mittwoch, den 17. August 2011 um 13:25 Uhr

The screenshot shows the 'Pre Installation Check' screen of the Vtiger CRM Configuration Wizard. The page has a blue header with the title 'Configuration Wizard' and the Vtiger logo. Below the header, the main content area is titled 'Pre Installation Check' in green. A 'Check' button is visible in the top right corner. The main content area is divided into two sections. The first section, enclosed in a rounded rectangle, lists several system requirements and their status:

PHP version >= 5.0	5.2.14
IMAP Support	Yes
Zlib Support	Yes
GD graphics library	Yes
Database Extension	Yes

The second section, titled 'Recommended PHP Settings:', contains a table with three columns: 'Directive', 'Recommended', and 'PHP.ini value'. The table shows the following data:

Directive	Recommended	PHP.ini value
safe_mode	Off	On

At the bottom left of the main content area, there is a green button labeled '<< Back'. The overall layout is clean and professional, with a clear focus on the installation requirements.

Abbildung 9: Die Einstellung safe_mode = Off muss ausgeschaltet sein da, es sonst zu Fehlern bei

Mittwoch, den 17. August 2011 um 12:50 Uhr - Aktualisiert Mittwoch, den 17. August 2011 um 13:25 Uhr

The screenshot shows the 'Configuration Wizard' interface for Vtiger CRM. The main heading is 'System Configuration'. It is divided into three main sections:

- Database Information:** This section contains several input fields and checkboxes. 'Database Type' is set to 'MySQL'. 'Host Name' is 'localhost' with a 'More...' link. 'User Name' is 'vtiger'. 'Password' is masked with dots. 'Database Name' is 'vtiger'. There is a checked checkbox for 'Create Database (Will drop if the database exists)'. 'Root User Name' is 'root'. 'Root Password' is masked with dots. 'UTF-8 Support' is checked. At the bottom of this section, there is another checked checkbox for 'Populate database with demo data'. A green button labeled '<< Back' is located below this section.
- CRM Configuration:** This section has 'URL' set to 'http://www.hardwarecrash.de/vtiger' and 'Currency Name' set to 'Euro(€)'.
- User Configuration:** This section has 'Username' set to 'admin', 'Password' masked with dots, and 'Email' set to 'wolfgang@hardwarecrash.de'.

Abbildung 10: Vtiger CRM Installation - Teil 3: Systemkonfiguration. In diesem Schritt wird das System mit den Daten des Administrators konfiguriert. Die Felder sind wie folgt ausgefüllt: URL: http://www.hardwarecrash.de/vtiger, Währung: Euro(€), Benutzername: admin, Passwort: [maskiert], E-Mail: wolfgang@hardwarecrash.de. Ein grüner 'Back' Button ist ebenfalls sichtbar.
